THE SCIENCE AND ART OF HEALTHY SKIN

*Comprehensive skin care
personalized just for you*

Board-certified dermatologist Mary T. Pentel, MD, FAAD, and her dedicated team have created a comfortable environment where all of your dermatology needs can be addressed in one convenient location.

Constructing a personal plan for each patient is Dr. Pentel's primary goal. Her success is accredited to taking time with her patients—listening, educating, and ultimately recommending a plan to achieve and maintain healthy, glowing skin.

Mary T. Pentel,
MD, FAAD

COMPREHENSIVE DERMATOLOGY

All of your skin care needs—medical, surgical, and cosmetic—are met at Southside Dermatology. The team of experts includes certified physician assistants and a licensed aesthetician, who assist Dr. Pentel in all aspects of your care plan.

Dr. Pentel first addresses the health of your skin. If cancerous lesions are detected, she uses, among other leading treatments, Mohs micrographic surgery to ensure the highest cure rate possible.

For enhancing the beauty of your skin, you have access to the best in professional skin care products and procedures. Dr. Pentel is committed to medical excellence and quality care.

“Taking the time to listen, along with my personal dedication to continuing education, is the best thing I can do for my patients,” says Dr. Pentel. “It’s important for me to ask questions about what

bothers you about your skin, your lifestyle, and your desired results. Together we can tailor a treatment plan perfectly suited to your individual needs.”

“Beauty is not about looking 10 or 20 years younger. It is about looking and feeling your best at any age.”

—DR. PENTEL
